# ORIGIN

---

It all began in 1957, when Bernardo and Umberto Mascioni opened a small artisan textile workshop in Azzio, Italy. Using traditional print techniques, the Mascioni brothers created handmade scarves and handkerchiefs, earning the devotion of a discerning clientele.

The Mascioni brand was firmly established in the early 1970s when the brothers opened a manufacturing facility in Cuvio, Italy and added bed, bath, and table linens to their handiwork of fine products. Today, Mascioni is widely recognized and respected for its exquisite linens of superior quality and timeless design.
